

# The Puzzle Prison

## Room 1: The Fruit Puzzle

In this room, the player must explore different boxes placed around the room, each containing a different type of fruit. Some boxes are locked, requiring the player to solve riddles or find hidden clues within the room to unlock them. The goal is to collect the correct fruits from each box, which will be needed to solve a final puzzle and unlock the exit to Room 2.

Objectives:

- Find the keys or clues to open the locked boxes.
- Collect fruits from different boxes based on hints provided within the room.
- Solve the final puzzle to proceed to the next room.

## Room 2: The Color Sequence Puzzle

In Room 2, the player is faced with a series of color-coded switches placed on pedestals. The objective is to activate these switches in the correct sequence, which will unlock the gate to Room 3. The sequence is hidden and can be revealed through clues scattered throughout the room. The player must pay attention to environmental cues, such as the color patterns on walls or objects, to decipher the correct order.

Objectives:

- Activate the switches in the correct order based on hidden clues.
- Solve the sequence puzzle to unlock the next room.
- Ensure the gate opens within the time limit to avoid game over.
